Allowable Subject Matter

1. Claims 46-53 (renumbered as claims 1-8 respectively) are allowed.

The following is an examiner's statement of reasons for allowance: Examiner agrees with Applicants that Olnowich (U.S. Patent No. 6,044,438), the closest reference fails to disclose comparing data that is accessed from two distinct locations. Olnowich fails to disclose that when a second processing element accesses first data in a resource and accesses a second data in a forwarding storage element and when it is determined that the first data in the resource and the second data in the forwarding storage element are not the same, the second processing element uses the second data from the forwarding storage element, as recited in independent claim 46; or using one of first data in a resource and second data in a forwarding storage element when a determining determines that the first data in the resource and the second data in the forwarding storage element are the same;
